Propellers

A black and white photograph showing a long, receding line of propellers in a workshop. The propellers are arranged in a row, with their blades pointing towards the right. Each propeller has a dark, cylindrical hub and a light-colored, curved blade. The perspective is from a low angle, looking down the length of the row, which creates a strong sense of depth. The background is slightly blurred, showing the interior of a workshop with some structural elements. The word "Propellers" is written in a clean, white, sans-serif font on the left side of the image, partially overlapping the propellers.

A black and white photograph showing a row of several oxygen tanks. The tanks are cylindrical with rounded ends and have valves on top. The lighting is dramatic, with strong highlights and deep shadows, creating a sense of depth. The text 'Oxygen Equipment' is overlaid in a clean, white, sans-serif font on the left side of the image.

Oxygen Equipment

Oxygen

Designation

Oxygen Cylinder Tanks

Canopies

A black and white photograph showing a row of aircraft canopies. The canopies are made of metal and are secured with numerous rivets. The perspective is from a low angle, looking down the length of the row, which recedes into the background. The lighting is dramatic, highlighting the textures of the metal and the repetitive pattern of the rivets.

Canopies and Windshields
